ABHIJEET SAXENA

(762)014-6989
saxenaabhijeet@outlook.com

Experienced Web Developer with more than 3 years of experience in writing web applications. Avid learner and technology enthusiast. Motivated team player who is comfortable owning and executing complex projects. Saving companies time and money with innovative ideas and solutions.

WORK HISTORY

Software Developer Engineer   **BookMyShow, Bangalore**   **August 2019 - Present**
- Working as a developer in the Front-End team for Live Entertainment vertical.
- Modularized synopsis page which ultimately optimized its performance and also allowed us to feature toggle any component as per our wish. Also Integrated Superstars Offers and currently working on its UI Redesign.
- Developed the core project for 3rd party integration of BookMyShow with PhonePe (BMS PhonePe switch).
- Developing additional UI features for Unified Seating System app used for creating seat layouts for events.

Senior Developer   **Principal Global Services, Pune**   **July 2016 – August 2019**
- Led the Web Development team developing complex responsive UIs in React.js/Angular 5 for new features
- Developed an optimized UI for handling customer requests. Slashed average call time by 70%. Led to savings of 4 FTE.

PROJECTS

- **WEB-V3** (2019-2020) — Core project that powers the Live Entertainment flow at BookMyShow. Large scale project capable of handling thousands of requests/second. Uses React, Node, Redux Saga, Babel, Webpack etc.
- **Flex Staff** (2019) — Web platform where leaders can publish work that'll be picked by freelancers working remotely. Allowed tapping overlooked freelancers market. Angular 7, Springboot, AWS, PostgreSQL
- **Policy Snapshot** (2018) — Single Page Application used by call center representatives to get a consolidated view of policy information. Java REST API, Spring, Angular 5
- **Structured Summary** (2018) — React.js SPA for Medical Reviewers to enter medical details and generate an Intelligent Summary which presents concise medical summary of Insured to the underwriter enabling faster underwriting. React, Redux, Browser Local storage
